Thank you for your continued trust and confidence.

All of us at Philamlife are grateful for your loyalty and patronage that have contributed to our 50 years of market leadership.

We value your trust and uphold our commitment to serving your needs with utmost dedication.

Be reassured that Philamlife is strong and well-capitalized with net worth of Php 49.5 Billion (as of December 31, 2007) and with over Php 170 Billion in assets - more than sufficient to secure your family's future. The financial issues pertaining to our parent company, AIG, do not affect our ability to pay claims and underwrite new policies.

As required by Philippine regulations, the bulk of Philamlife's investments are in marketable Philippine government securities, prime local corporate bonds and a small percentage in blue chip stocks. This ensures that your policies are safe and fully backed up by the financial strength of Philamlife.

AIG announced that it will refocus the company on its core property and casualty insurance business to repay its loan from the Federal Reserve Bank of New York. AIG further announced its intention to sell a range of companies and assets. The Philippine American Life Insurance Company has been identified for possible divestment along with some of Philamlife's affiliates.

Philamlife is a crown jewel of AIG and has built excellent brand equity being the only financial institution in the country with the distinction of five Platinum Trusted Brand awards. This makes Philamlife a very attractive company.

AIG is seeking top-rated, financially strong brand names with the capability to continue Philamlife's legacy of leadership, strength, stability and dedication to its policyholders, employees, agents, partners, shareholders, and other stakeholders.

As we continue this process, we will focus on the daily execution of our business and continue to provide our customers and distributors with the highest level of service. Please be assured that we will continue to work with the regulatory authorities to ensure that the divested assets will remain financially sound. We will continue to write new business and remain committed to meeting customers' needs.

Funding problem

**W**HILE THERE IS A PROBABLY A LIMITED amount of money available to help the world's poor, the real problem is not the lack of money, but the lack of a system to distribute it. The World Bank is the only institution that has a mandate to help the world's poor, but it is not doing it well. It is not doing it well because it is not doing it well.

**EDITORIAL**
 And if the government is not doing it well, it is not doing it well because it is not doing it well. It is not doing it well because it is not doing it well. It is not doing it well because it is not doing it well.

# What yoga can do for you

By Mark E. Anderson

When you think of yoga, you probably think of a person in a lotus position, eyes closed, with hands in a prayer position.

But yoga is much more than a series of poses. It is a lifestyle that can help you live a healthier, more balanced life. Yoga can help you reduce stress, improve your mood, and increase your energy. It can also help you lose weight, improve your sleep, and reduce your risk of chronic disease.
